Wiping and cleaning

The easy choice for the best result

Helping you to choose the right product

Whether you run a restaurant kitchen or an industrial production line, we understand that every second matters. Tork wipes, cloths and dispensers are designed to get the job done with maximum efficiency – keeping your business running smoothly.

What works best for your business?

We develop our product ranges to match the different needs of our customers.

Find the right product for your workplace based on these three simple questions:

What task do you need to do?

Do you need a wiper or cloth for dry or wet wiping, for cleaning to remove oil and grease, or for polishing?

What type of working space or workstation do you use?

Are you at a workstation where you and others need equal access to a dispenser, or do you need to move wipes around to carry out different tasks?

How often does this task get done, and by how many people at once?

Do several people use wipers or cloths during the day, or does one person occasionally need to use them?

What we offer

We've got a comprehensive range of specialist wipes and cloths, each designed to perform specific tasks. Add one of our dispensers to create an efficient system that controls consumption and cost.

TASK		
WIPING Mopping up spills, soaking up liquids and picking up dirt and dust with paper.	CLEANING Removing dirt and stains from surfaces, machines or tools with cloths that are dry or used together with water, solvents or detergents.	POLISHING Creating a protected and shiny surface with the help of a cloth that applies polish onto the surface and is then rubbed to obtain a good finish.

Our exelCLEAN® and patented foam-spun technologies produce nonwoven cloths setting the standard of excellence for safer, healthier and more efficient workplaces.

- Save valuable time and effort with faster cleaning
- Use less solvent, saving money and reducing solvent exposure
- No matter the task – with our products you can be confident you will get the job done
